

## **City Gas India Roundtable 2010**

*Addressing the challenges of developing downstream gas markets to deliver clean energy for transport, residential, industrial and commercial needs*

**6th August 2010**

**School of Petroleum Management,  
Pandit Deendayal Petroleum University, Gandhinagar-Gujarat**

### ***Invitation to Distinguished Speakers***

School of Petroleum Management, Pandit Deendayal Petroleum University has taken up the initiative to invite the City Gas Distribution industry in India for discussions &, deliberations on issues that are of vital importance to the development of downstream natural gas markets in India.

With this objective, this is to extend an invitation to the industry leaders at the **City Gas India Roundtable 2010** at the School of Petroleum Management, Gandhinagar, Gujarat on 6th August 2010.

The aim of the City Gas India Roundtable 2010 is to provide a platform for engaging in deliberations addressing the managerial and techno-commercial challenges of developing downstream natural gas markets in India towards the objective of delivering clean energy for transport, residential, industrial and commercial needs. School of Petroleum Management as a leading academic institution in Oil & Gas/Energy domain is organizing this roundtable with an objective to address the issues that are of vital importance from Indian oil & gas/energy industry & policy perspective.

Distinguished speakers are invited to be panelists in focused interactive panel discussions on specified topics/themes of City Gas Distribution business in India.

### **Speaker Profile**

CEO/Business Heads/top-decision makers from leading City Gas Distribution companies from Indian Public & Private sector; Top officials from policy making bodies like PNGRB, MOPNG, Government of India; Officials from Government of Gujarat; Select representatives from end- consumers; Natural gas think-tank and select representatives from supply chain partners.

### **Key Topics to be discussed**

- Designing, constructing and operating efficient City Gas networks
- Project & Operations Management issues for CGD business
- Natural Gas supply security
- Fiscal and regulatory aspects
- Developing natural gas markets
- Health, safety, security and environment (HSSE) in CGD business
- Supply Chain management challenges for CGD business
- Developing CNG infrastructure

### **Programme Format**

After the opening remarks from distinguished panelists, focused interactive panel discussions are proposed with each panel having a moderator. The idea is to decipher key takeaways from each panel discussion and present them in documented form to key stakeholders. More details shall be shared once the panels take a concrete shape at some stage later.

**School of Petroleum Management, Pandit Deendayal Petroleum University, Gandhinagar**

Pandit Deendayal Petroleum University (PDPU), Gandhinagar, recognized by UGC is an academic institution of higher education and research in energy sector with a special focus on the oil and gas domain. PDPU has been established by Gujarat Energy Research & Management Institute promoted by GSPC Limited, a Government of Gujarat Undertaking.

The School of Petroleum Management at the University was started with the objective of addressing the challenges of preparing managerial manpower across the entire value chain for the Oil & Gas sector. SPM has also taken up the task of playing an important role in deliberating on policy matters of importance to the Oil & Gas sector, including those pertaining to City Gas Distribution.
