6. GRADING SYSTEM

6.1. We use a zero-to-four point scale for reporting the overall grade. The grades, their corresponding range of cumulative grade point average, explanation of grades and corresponding percentage range are given below:

Grade	Grade Point	Explanation
A	<=4.000 and >=3.500	Excellent
B	<3.500 and >=2.500	Good
C	<2.500 and >=1.500	Average
D	<1.500 and >=0.500	Below Average
F	< 0.500	Fail

Grade Point Equivalence: **A** = "<=4.000 and >=3.500", **B** = "<3.500 and >=2.500", **C** = "<2.500 and >=1.500", **D** = "<1.500 and >=0.500", **F**= "< 0.500".

6.2. An "I" grade may be assigned by a course instructor in special circumstances. The rules for awarding and clearing "I" grade are as follows:

6.2.1. An "I" grade can be awarded in case a student could not complete some of the course requirements due to some extraordinary situation beyond the control of the student, as judged by the course instructor. Those situations must be genuine and not just not being able to complete some course requirements.

6.2.2. Usually, an "I" grade is sought for the component(s) of evaluation that is (are) due towards the end of the term.

6.2.3. A student who is not in a position to complete some course work must seek prior written permission for "I" grade from the course instructor.

6.2.4. The written permission must include a time line for completing all incomplete work.

6.2.5. No "I" grade can be awarded for any in-class component of the evaluation.

6.2.6. No "I" grade can be awarded for incomplete course requirement stemmed from an act of academic indiscipline.

6.2.7. Once "I" grade is awarded, the student must complete the requirements and the final grade must be submitted by the course instructor within a period of 30 days from the last date of submission of grades.

6.2.8. If the "I" grade is not removed within 30 days from the last date of submission of grades, the "I" grade will be automatically converted in "F" grade.

6.2.9. No student can graduate with an "I" grade.

6.3. A course level grading:

6.3.1. At a course component level, we follow the "+" and "-" grades too. Thus, the course level grades may be as follows:

Grade	Points		Grade	Points		Grade	Points		Grade	Points
A+	4.33		B+	3.30		C+	2.30		D+	1.30
A	4.00		B	3.00		C	2.00		D	1.00
A-	3.70		B-	2.70		C-	1.70		D-	0.70

6.3.2. A 'W' grade may appear in the transcript if a student is administratively withdrawn. However, grade 'W' has no corresponding grade point average and it is not included in the CGPA calculation.

6.3.3. The instructor will decide and announce in the course outline all the cut-offs for the above grades along with "+" and "-".

6.3.4. In addition to the entire range of grades with "+"s and "-"s, an instructor may use a grade of "A+" (4.33 grade points) in any component, as per the policy of the course instructor. However, the overall grade for a course cannot be higher than "A". The overall grade will be only A, B, C, D and F; and not "+"s and "-"s in any grade.

6.4. At the course level the grade point average (GPA) will be rounded to the second decimal point, and that cannot be more than 4.00.

6.5. The course level GPA will be included in the calculation of cumulative grade point average (CGPA) of the term, year and programme.

6.6. The CGPA for the term, year and programme will be calculated by rounding up the number up to the two decimal points.

6.7. The trimester and yearly transcript will show the CGPA and not overall grade.

6.8. The programme-end transcript will, however, give an overall grade along with the programme CGPA. The overall grade will be only A, B, C, D and F; and not "+"s and "-"s in any grade.

6.9. SoM follow the above grading system. If any change/conversion of grades is needed as per needs of regulatory authorities/relevant academic bodies, the academic committee will do the needful.

Note: Grading shall be based on Normal Distribution Curve.

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of Pandit Deendayal Energy University (PDEU) which comprise the balance sheet as at 31st March 2023, and the Income & Expenditure for the year ended on that date and notes to financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements")

In our opinion and to the best of our information and according to the explanations given to us the aforesaid financial statements give the information required by the Pandit Deendayal Petroleum University Act,2007 in the manner so required and give a true and fair view in conformity with Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI) and other accounting principles generally accepted in India:

(a) In the case of the Balance Sheet, of the state of the affairs of the University as at 31st March, 2023 and

(b) In the case of Income & expenditure account, the excess of Income over its Expenditure for the year ended on 31st March 2023.

Basis for Opinion

We Conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs) and Guidance issued by The Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditors Responsibilities for the Audit of Financial Statements section of our report. We are independent of the University in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis Matter

We draw attention to Note No 13 of Notes forming parts of accounts in respect of change in accounting policy for assets acquired from Earmarked fund and recognized the such fixed assets under Net Approach Method in accordance with Accounting Standard 12 "Accounting for Government Grant".

Our opinion is not qualified in this matter.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statement in accordance with the aforesaid Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the institute's ability to continue as a going concern, disclosing as applicable matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Institute or to cease operation, or has no realistic alternative but to do so.

The management is responsible for overseeing the University financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high-level assurance, but is not guarantee that an audit conducted in accordance with SAs will always detect material misstatements when it exists. Misstatements can arise from fraud and error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Institute's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Institute to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

PDEU has appointed M/s. Manubhai & Shah, Chartered Accountants as its internal auditor for the year under audit. We have relied on internal auditor's report while carrying out our audit.

Industry Engagement at SoM-PDEU

Objectives of the practice

- To ensure an ongoing industry relations activity at SoM
- Provide a contemporary business practices' exposure to both faculty and students
- Providing real-life exposure to SoM students through industry-visits
- Optimizing resources towards sustaining industry connect practice
- Expanding the database of industry expert resources at SoM
- Building and converting relationship with industry towards seeking their support in internships and final campus placements
- Providing a platform to industry to share their own best practices
- Maintaining a healthy mix of concept and application in teaching –learning practices at SoM
- Ensuring value added content for Social Media and other visibility

Context

Industry engagement is the core of Business Schools worldwide. A vibrant connect with the industry brings a lot on table for a Business School in terms of larger visibility, osmosis of best practices and knowledge, training , recruitment and consulting opportunities, learning from practitioners among others. A live and ongoing connect with the industry also helps making the teaching, learning practices contemporary and complements the academic curriculum. Moreover a regular interaction with industry professionals facilitates seeking their support towards reviewing and revising syllabus at Business School from time to time. In addition to that the student teams engaged in industry connect get a whole lot of professional exposure in managing sustainable relationships with senior industry professionals. They learn substantially in terms of industry etiquette, professionalism, oral & written communication and prioritizing activities.

The Practice

The industry engagement practice at SOM-PDEU is carried out in a well-organized, structured manner ensuring participation of various faculty, students and industry-relations office. The practice is a composite of various activities and thus the net result is a well-oiled mechanism for maximum impact. These are as follows:

I. Industry Conclaves: SoM has been organizing conclaves for strengthening industry-academia relations as annual events by students' teams under mentorship of different faculty members. These conclaves are called- (i) Energy Conclave (ii) Samavesh- The HR Conclave (iii) Business Management Symposium (iv) Specialized focus Conclaves e.g., Business Analytics, Blockchain Technology etc. SoM faculty council monitors and reviews these annual conclaves every year and new ideas are incorporated in next year's conclaves. Each Conclave witnesses about 8 industry speakers. So about 30 industry experts each year engage with SoM on this count. Over the years,

SoM Conclaves have become a marquee activity brand at SoM that the industry professionals eagerly look forward to. In addition to the Industry Conclaves, the International Conference on Energy & Infrastructure Management (ICEIM): ICEIM is biennial event of SoM that is organized under leadership of different faculty coordinators. In ICEIM-2016, 2018 and 2020, we have diversified our Conference Advisory Board by inducting experts from different industry sectors. Each edition of ICEIM witnesses about 10 prominent industry experts engaging in various capacities.

II. Industry Visits: Since the first PGDM programme of IPMG (the erstwhile SoM), industry visits are essential part of SoM's MBA orientation programme. Every year, first year MBA students were taken to 3 days industry visits under mentorship of SoM faculty in nearby industrial sites. MBA (E&I) students visit industrial sites of energy companies (petroleum, gas, power, renewable energy) and MBA (General Management) students visit different industries (e.g. FMCG, media, Dairy, Retails etc.). SoM alumni are also involved in this activity as guest speakers during the orientation programme. Placement Committee and Alumni Committee play very important role in organizing these industry visits every year. Students visit about 10 companies and spend considerable amount of time there in these structured visits.

III. Industry-focused Alumni Relations activities:

a. Tracking, data-capturing and documentation of SoM alumni's lateral movements, career upward movements by SoM Alumni Relations Committee (a student-driven committee) under mentorship of faculty mentors. We have also introduced an online tracker on alumni movements for these updates. This is also prominently shared on social media with appropriate hashtags for larger visibility in industry.

b. Involvement of SoM alumni in SoM's MBA admission process as industry experts in the Group Discussion/Personal Interview Panels. Each admission season witnesses about 5-8 prominent alumni working in industry who participate as industry experts.

c. Online webinars/Offline campus industry related talks of SoM alumni organized by SoM alumni committee and Guest Lectures Committee under mentorship of faculty mentors. On an average about 20 such industry lectures are organized each year.

d. Some experienced SoM alumni have also been serving as visiting faculty in teaching MBA-level specialized courses under mentorship of SoM core faculty. This involvement of SoM alumni as visiting faculty has significantly improved the quality of industry-focused specialized courses offered in MBA programme. About 5 SoM alumni from industry currently are engaged in conducting courses at SoM as industry experts.

IV. Value-added activities in relation to Campus Placements led by industry experts and practitioners:

a. SoM has a student-driven Corporate Relations and Placement Committee (CRPC) that works under mentorship of a faculty chairperson and placement officer to organize campus interviews, soft skills development workshop and mock interviews every year. SoM CRPC invites external experts from the industry to refresh soft skills of second year students before campus

interviews in addition to regular Business Communication courses as part of MBA curriculum. Apart from industry communications & soft-skills trainers, about 2-3 prominent experts from industry engage with final year batch students on this aspect.

b. SoM CRPC has been organizing cohort-wise campus visits of prospective industry recruiters for past 5 years. This practice has improved efficiency of campus placements and reduced unnecessary drop-outs of job offers by students. Every year about 35 plus companies visit as industry recruiters.

c. CRPC under the Faculty Mentor for Corporate Relations organizes Orientation Programme for New Batch in the beginning of each academic session. Close to 10 industry speakers join to interact in each such Orientation Programme.

V. Student led Industry Guest Lecture Committee (GLC) at SoM: The GLC works with the objective of identifying prominent industry speakers who are invited to campus physically/online to interact with the students throughout the year. Every year about 15 -20 such industry experts are invited by GLC to engage with the students and faculty. The GLC activity complements the Industry Conclaves, Industry Visits and Industry Alumni Connect activities.

Evidence of Success

The best practice of Industry Engagement at SoM has resulted in direct outcome in form of consistent 100% final placements year after year, with last 5 years being no exception. Consistent industry engagement results into sharing training and placement opportunities with other schools of PDEU as well. Due to continuous industry connect, it has been possible for SoM-PDEU to start a specialization in Business Analytics at SoM during 2020-21. The entire exercise right from identification of appropriate industry-focused contemporary electives to designing course curriculum (with mapping of CO-PO) and offering some of these electives have been done jointly by SoM faculty and industry experts. Prior to this the Business Analytics Teaching lab (BATL) was established during 2018-19 with the support from industry, who came up with the idea of sharing real business data with students so that relevant data analytics tools can be used to identify solutions for business problems. The industry professionals engaged with students in the entire exercise which was a good kick start to the concept of BATL later executed successfully. Even before that at least 10 courses have been developed in collaboration with industry experts and the same have also have been delivered by them. Industry engagement has also resulted in some senior professionals from industry joining SoM's PhD programme as research scholars. In a nutshell, the structured effort towards industry engagement for mutual benefits has facilitated ensuring support of industry in all areas of SoM-PDEU, where the need arises.

Problems Encountered & Resources Required

Apart from others, sustaining momentum of industry connect practices is one of the biggest challenges faced at SoM. It has to be ensured that every year, apart from maintaining connect with existing industry well-wishers, we also connect with at least 25% new companies. That is required

for breaking monotony and also adding new companies in the pool. Similarly, new professionals have to be invited for ensuring variety. In case of industry visits, the major problem encountered is in terms of obtaining timely approvals from companies as security clearance takes up lot of time and that may have an impact on scheduling of the industry visit activity. One of the other problems towards this best practice at SoM is investment in time by concerned faculty members. Even though student teams lead quite a few activities, of this practice, they also need to be constantly monitored to ensure timelines, no overshooting of budgets and maintaining hierarchy of industry professionals in the respective events. The same is true for identifying new companies for visit also. While we have been making best attempts to attract industry professionals for respective events on the basis of SoM-PDEU brand equity, many a times the visiting professionals' basic travel & stay arrangements have to be made and that is where chunk of monetary resources are needed. However since the practice of appropriate budgetary approvals is also in place, it is possible to optimize the expenditure on these events. One of the problems encountered in budgetary constraints for travelling and stay is being addressed by inviting industry professionals through video-conferencing. We need more number of competent administrative staff to handle industry relations affairs at SoM.
