

► RECRUITERS SPEAK

It's a matter of pride and satisfaction for all @ SPM that we are able to cater to the industry's requirement of skilled and knowledgeable human resources. And it's always great to hear from them. Some excerpts:

Nikhil Patil

HR Partner – Recruitment
Tieto Corporation, India Delivery Centre

"Tieto's Energy Components (EC) software is the leading solution worldwide as per IDC Energy Insights. And we are always striving to welcome top talent to join us in the journey of finding new perspectives, managing change, simplifying and accelerating our clients' businesses. School of Petroleum Management (SPM), Pandit Deendayal Petroleum University (PDPU), Gandhinagar has provided us many brilliant colleagues who have been consistently contributing in our global and evolving working environment."

Narendra Medappa

Practice Lead – Talent Acquisiton
Infosys Limited, Bangalore

"We at Infosys have been associated with School of Petroleum Management [PDPU] since its inception and the relationship has strengthened over the years. The primary beneficiary of SPM talent has been our business units aligned to the Energy / Oil & Gas industry verticals. Strong learnability and focus on subject fundamentals make the SPM students exceptional."

Chanchal Maheshwari

Executive Director - Risk Advisory Services
Ernst & Young, Ahmedabad

"Having been associated with School of Petroleum Management, Pandit Deendayal Petroleum University, as a proud recruiter since almost last 6 years now, EY has realised that the resources recruited from SPM have delivered substantial value over the period of time through a unique blend of rich energy sector exposure and astute managerial skills. Ernst and Young leadership also appreciates the commitment demonstrated by resources hailing from SPM PDPU across hierarchy and looks forward to lasting relationship with Pandit Deendayal Petroleum University (PDPU) which would result in successful academia-industry collaboration."

► VISITORS SPEAK

The galaxy of visitors on various occasions @ SPM-PDPU do not go unimpressed and are always fulsome in their heartfelt wishes for us. Some of them:

Dr. Urjit Patel

Deputy Governor, RBI

"The remarkable progress and growth of PDPU in a few short years gives us the confidence that it will be India's MIT in the field of energy."

Mr. Anurag Deepak

ED - Pipelines, BPCL

"A world class infrastructure for the university, very happy & excited to come here, will look for future opportunity to visit."

► ALUMNI SPEAK

SPM has played an important role in the career of its students. We are happy that our alumni are always effusive in their praise for their alma mater. Voices of a selected few:

Krishnadev CS

Company: FICCI
Profile: Deputy Director (Energy)
Batch: PGP-09

"MBA is all about adapting human knowledge in business context. School of Petroleum Management gave me the ideal platform to bounce off classroom learning across some very sharp and smart guys. It has been the most fruitful two years of my life."

Joydeep Mukherjee

Company: Bharat Petroleum Corporation Limited
Profile: Dy. Manager - Lubes, Siliguri
Batch: PGP-08

"Professionalism" is a loosely used word. Today, when I have put in 05 years in Bharat Petroleum Corporation Limited, I can only understand a certain portion of that word. In today's organizations, one is tested to the hilt of knowledge, proficiency, ability to make sound decisions, working in a team and if fortunate enough leading a team.

I can safely vouch that the days spent in School of Petroleum Management were full of experiences which helped me gather knowledge about the Energy Sector, appreciate the nuances of energy businesses and hone my skills of working, managing & leading teams.

The relentless case-study oriented pedagogy opened our horizons of thinking and analysis, the day in-day out presentations honed our marketing skills; helped shedding our inhibitions and the world class infrastructure made us resourceful. To cap it all, I also must mention the homogeneity in the Batches, which helped us to interact & understand different people; made us emotionally intelligent human.

To the budding managers who are about to enter another important phase of their lives, Good Luck!"

Shobit Marwah

Company: Shell, Singapore
Profile: Economist
Batch: PGP-08

"The campus is outstanding, and adding to that, the teachers had new ideas, cutting edge performance that made my time there valuable. Not only was it a world class educational experience, I met people from varying industries. Their perspective augmented the program which I would classify as condensed MBA course focusing on 'oil and gas' filled with tools you can apply on job. From the staff, professors, class-work to the work groups the impact is real and substantial to augment my professional career."

Rutvi Jain

Company: Mahanagar Gas Limited, Mumbai
Profile: Assistant Manager, CNG Group-Marketing
Batch: PGP-09

"MBA with specialization in Oil and Gas Sector from SPM has helped me to the core in shaping my career. From past 4 years, I am working with Mahanagar Gas Limited - one of the leading natural gas distribution firms of India. The learning of CGD sector which were inherited during my MBA and internship days has helped me in performing better in my present job profile. I am working as Assistant Manager-Marketing and part of core CNG group of MGL which has taken my learning graph to a very high scale. The concepts learned during my college days helps me in my corporate life."
